NEMI FIRE LIFE SAFETY LEVEL 1 TECHNICIAN CERTIFICATION

NEMI will be hosting Fire Life Safety Level 1 Technician Certification class at Local 38 Training Center on November 19 & 20, 2009.

Fire Life Safety Level 1 has been registered on line and is now ready for students to make application for this class.

NEMI no longer accepts paper applications and you are required to make your application on line.

If you have registered in the past on the ICB website you will need to enter your username and password. If this is your first time, to use the online application you will need to set up a username and password. Please remember your username and password for future applications or to modify any information if it has changed.

This class is a 2 day class. 8 hours of instructions on November 19 and a 4 hour class on day 2 and a 2 ½ hour certification exam.

The process of making an application on line is very easy and should only take 10 minutes of your time. All communications from NEMI, and or TABB will be on line and sent to your email.

Go to www.icbcertified.org, click on the NEMI Classes Tab, scroll down until the Brewster N.Y. Fire Life Safety Level 1 class appears. Click on the button on the far right that says "click here", and then simply follow the links. NEMI's policy is, there must be **10 students** to hold the class and their application must be submitted on line 2 weeks prior to the start class. November 5, 2009 is the cut off date.

Please put down your IA membership number and the last 4 digits of your social security number. This will eliminate a lot of problems registering you for this class in the NEMI office. Please also indicate your employer.

Please also contact the Craft Training Office to verify your attendance in the class.

Best regards,

Robert J. Dutra
Director of Training
